

Must-Have Boat Safety Equipment

Life Jackets

It prevents people from drowning. Make sure the jackets fit properly and are in good condition.

Fire Extinguisher

Class B extinguishers are best for boats. Check the charge before each trip.

Whistle or Horn

This is useful for signalling for help if you become stranded.

Anchor and Line

They keep your boat from drifting away and to secure your boat to a dock or another vessel.

Signal Mirror

To reflect sunlight and signal for help during the day.

Flotation Device

Life jackets alternative. It can be a life ring or cushion.

First-Aid Kit

This should include bandages, antiseptic wipes, burn creams, and pain relievers.

Navigation Lights

These are required by law for boats that operate at night or in low-visibility conditions.

Flares

It's for signal for help if you become lost or disabled while out on the water.
